ABOUT MOHWELERE CONSULTING

Mowhelereng Consulting is an environmental consulting company committed to providing practical, sustainable and legally compliant environmental solutions.

We support responsible development by helping clients navigate environmental legislation while promoting environmental stewardship and long-term sustainability. Mowhelereng Consulting serves various sectors including mining, infrastructure, construction, agriculture and energy. Our approach combines technical expertise, stakeholder engagement and environmental responsibility.

OUR CORE VALUES

The following values form the foundation of our operations:

- Professionalism.
- Integrity.
- Sustainability.
- Client Focus.
- Collaboration.

APPLYING SCIENTIFIC EXPERTISE TO CREATE RESPONSIBLE SOLUTIONS

Our commitment is to deliver environmentally responsible and technically sound consulting services that support economic growth while preserving ecological integrity and agricultural sustainability.

**Sustainable
development requires
balancing economic
progress with the
responsible
management
and protection of our
natural environment.**

OUR MISSION & VISION

Our Vision is to be a trusted environmental consulting partner delivering sustainable solutions that balance development with environmental responsibility.

Our Mission is to provide professional, reliable and innovative environmental consulting services that enable clients to achieve regulatory compliance and sustainable project implementation.

OUR SERVICE

Mowhelereng Consulting provides integrated environmental and geological consulting services designed to support sustainable development, regulatory compliance and responsible resource management. We work closely with clients in the mining, infrastructure, energy, industrial and agricultural sectors, delivering practical and technically sound solutions throughout the project lifecycle.

Environmental Impact Assessments

We undertake environmental impact assessments to identify, evaluate and manage potential environmental impacts associated with development projects.

Environmental Management Programmes (EMPr)

Development and implementation of Environmental Management Programmes to ensure responsible project execution and effective mitigation of environmental impacts.

“

Sustainable development requires balancing economic progress with the responsible management and protection of our natural environment.”

Mining and Prospecting Support

We provide environmental support services for prospecting right applications and associated environmental authorisations.

Mineral Exploration Support

Geological investigations and technical support for mineral exploration programmes to identify and evaluate mineral potential.

Geotechnical and Geological Assessments

Evaluation of geological and ground conditions to support engineering design, infrastructure planning and development activities.

Prospecting Right Applications

Preparation and support for prospecting right applications and associated regulatory processes in accordance with applicable legislation.

OUR PROJECTS EXPERIENCE

PROJECT 1: Environmental Impact Assessment and Public Participation Process for a Prospecting Right Application

Project Location

Portion 6 of the Farm Appeldoorn 38 IT near Carolina within the Chief Albert Luthuli Local Municipality and the Gert Sibande District Municipality, Mpumalanga Province.

Scope of Work

- Environmental Impact Assessment (EIA).
- Public Participation Process (PPP).
- Environmental Reporting.
- Stakeholder Consultation.
- Regulatory Compliance Support.
- Environmental Authorisation Processes.

OUR COMMITMENT

At Mowhelereng Consulting, we are committed to delivering professional, reliable and sustainable environmental and geological consulting solutions that create value for our clients while contributing to responsible development and environmental stewardship.

"Committed to responsible resource management and sustainable growth, we provide practical solutions that support progress while preserving the environment."

HEALTH, SAFETY AND ENVIRONMENTAL COMMITMENT

Mowhelereng Consulting is committed to promoting safe working practices and responsible environmental management. We recognise the importance of protecting people, communities and the environment and strive to conduct all activities in a manner that minimises risks and supports sustainable development.

"Environmental stewardship is an investment in future generations."
